- The toy certification demonstrates a commitment to safety, quality & environmental protection
- EN71 is the European standard toy safety testing
- EN71 can be divided into 3 categories:
  - ❖ Part 1: Mechanical & physical properties
  - ❖ Part 2: Flammability
  - ❖ **Part 3**: Migration of certain elements
- Mutoh MP31 & US11 were successfully tested for EN71 part3: 2013 + A1:2014
  - ❖ Amount of extractable metals that might be released if the tested material were to be swallowed
